

PMM200SS

Portable Hand Plate Beveling Machine

**NOT AVAILABLE
IN THE USA**

RANGE: thickness 6 to 60mm / bevel angle from 0° to 60° / max bevel width 21mm

- **Materials:** Any kind of stainless steel. Will prep all other steels also.
- **Power:** Electric 110 or 220v

The PMM200SS is designed to work on stainless steel with its new powerful slow speed motor. The PMM200SS also has a guide plate with guide rolls made of stainless steel. The PMM200SS is an easy to use, portable, heavy duty machine designed for beveling steel/stainless steel plates prior to welding.

This beveling machine features a new single milling head equipped with 10 square, indexable inserts makes machining process far more efficient and much less operator fatiguing smooth operation and exceptional efficiency. Capable of beveling around 1.5 meters/minute (depending on the amount of the metal being removed).

The PMM200SS incorporates many safety features. It has a state of the art electronic control module protecting the operator, machine and tools. It is equipped with guide rolls, which make it easy and light to operate. Vibration insulation protects both the operator and electronics against vibration.

Pipe beveling possible with no accessories up to 12".
An optional attachment for beveling up to 24" is also available.

Mono block milling head, with 10 indexable inserts fixed with screws.

Continuous angle adjustment from 0 to 60 degrees.

Plate beveling

Technical specification

Power Supply	1,1 KW, 110v or 230v
Motor	Inductive with increased start-up current
Motor speed	2.820 rpm
Tooling	Integral milling head with 10 square inserts
Standard angles range	0° - 60°
Optional functions	Plate facing
Plate Thickness	Minimum 6 mm
Dimensions	480 x 420 x 360 mm
Weight	20kg / 44lbs
